

## Sample Requirements for Serum 17-Hydroxyprogesterone and Androstenedione

---

The Endocrine and Steroid department at Canterbury Health Laboratories kindly wish to remind you of the recent changes in methodology (ELISA to LCMSMS) for androstenedione and 17-Hydroxyprogesterone assays.

Please note that the sample requirements for Androstenedione and 17-OH Progesterone have changed.

**A Red top tube is now required and Gel tubes (Yellow or Green top) are unsuitable.**

Further information is available on latest manager ([www.labnet.health.nz/testmanager](http://www.labnet.health.nz/testmanager))
